

As we transition into Summer, it is important for students to continue to work on the skills they have learned this year. Summer work allows students to practice taught skills, achieve mastery in areas where they may need more review, and gain confidence going into the upcoming school year.

Please see below for your student's summer work in the areas of Reading, ELA, and Math. Your student's teacher has differentiated this summer work to meet their specific needs in each area. Progress on summer work will be monitored over the summer and reviewed by your child's teacher upon their return to school in August. We thank you for your support of your student's academic success.

Reading Assignment

| | |
|-------------|---|
| Reading Log | Please spend at least 15 minutes a day reading this summer. Once a week please complete the attached Reading Log on an ON LEVEL book of your choice. Your students latest STAR reading report with their latest reading level can be found in their report card envelope. Books may be books you have at home, find at the library, or on SORA. |
|-------------|---|

ELA Assignment

| | |
|------------------------------|--|
| IXL Language Arts Diagnostic | Students will update their IXL Language Arts Diagnostic skills once per week. They will use the recommended skills on the diagnostic report to practice the main 4 domains of 3 rd Grade Language Arts skills (Reading Strategies, Vocabulary, Writing Strategies, Grammar and Mechanics). Frequent practice in the recommended skills will help reinforce and enrich student skills as needed. The goal is for students to receive a minimum score of 400 in each domain. It is recommended that students practice ELA skills for at least 15 minutes 4 times per week. |
|------------------------------|--|

Math Assignment

| | |
|---------------------|--|
| IXL Math Diagnostic | Students will update their IXL Math Diagnostic skills once per week. They will use the recommended skills on the diagnostic report to practice the main 6 domains of 3 rd Grade Math skills (Geometry, Measurement, Data, Fractions, Algebra, Numbers & Operations). Frequent practice in the recommended skills will help reinforce and enrich student skills as needed. The goal is for students to receive a minimum score of 400 in each domain. It is recommended that students practice Math skill and fluency for at least 15 minutes 4 times per week. |
|---------------------|--|

Summer is a great time to continue working on your reading skills. This Summer, please spend AT LEAST 15 minutes, four times per week reading. This will keep you on track to start next year successfully! SORA and your local public library are great resources. Please return this completed reading log when you return to school.

Happy Reading,
Your SMM Teachers
